Zhang, S.Q., 249

Subject Index Volume 70 (1992)

Amino acid concentration, 225
Apple juice clarification, 257
Asymmetric membranes, 17

Batteries, 267
Benzyl alcohol, 249
Bipolar membranes, 153
Bovine serum albumine, 177

Carrier, 31
Cation-exchange membrane, 267
Cationic extractant, 225
Ceramic membranes, 41
Charged membranes, 153
Composite membranes, 75, 143
Computer simulation, 237
Conducting polymers, 9
Coupled facilitated transport, 277
Current discharge, 267

Demulsification, 225
Di(2-ethylhexyl)dithiophosphoric acid, 31
Diffusion, 143, 283, 289

Electro-osmosis, 1
Electrochemical technique, 207
Electrochemistry, 9
Enzyme electrode, 237
Ethanol removal, 119
Extraction, 119

Facilitated transport, 283, 289
Fermentation, 119
Fiber membranes, 17, 85, 143

Gas separations, 17, 143
Gas membranes, 119
Gas and vapour permeation, 75
Glycol, 1
Goethite, 41

Hydrolytic polymer, 41
Hydrophobic membranes, 119

Immobilized glucose oxidase, 237
Inorganic membranes, 41
Interpenetrating polymer network (island and sea/cocontinuous), 193
Ion selectivity, 153
Ion-exchange reaction, 267
Iron oxide, 41

Liquid bridge, 217
Liquid emulsion membrane, 225
Liquid membranes, 277, 283, 289
Liquid membrane stability, 65
Liquid permeability and separations, 283
Liquid surfactant membranes, 65
Lithium, 267

Membrane extraction, 31
Membrane potentials, 277
Membrane preparation and structure, 17, 53, 85
Membrane reactor, 129
Membrane separation, 163
Membrane stability, 225
Metal extraction, 65
Microfibrils, 217
Microfiltration, 85, 257
Microporous hollow fiber membranes, 217
Microporous and porous membranes, 53
Microporous membranes, 177
Mineral membranes, 257
Modelling, 129
Modelling and extraction, 65

Non-porous membranes, 75

Organic separations, 9
Oxygen transport, 207

Permeate flux enhancement, 257
Permeate flux resistance, 177
Permeation, 65
Pervaporation, 75, 105, 163, 193, 249
Polydimethylsiloxane membrane, 249
Polyethersulfone, 17
Pore flow mechanism, 163
Porous support, 75
Protein concentration, 177
Pulsating flow, 257

Reaction-diffusion system, 237
Response characteristics, 237
Reverse osmosis, 153

Selectivity, 129
Separation of ethanol-water mixtures, 105, 193
Series catalytic reactions, 129

Solubility and partitioning, 9
Solvent treatment, 217
Supported liquid membranes, 31
Surface tension, 217
Surface analysis, 53

Theory, 105, 289
Thermodynamics, 277
Titanium oxide membrane, 1
Transport equations, 163
Transport model, 249

Ultrafiltration, 177

Wastewater treatment, 31
Water treatment, 283

X-ray induced degradation, 53
